These prices represent a 75% discount on public fares and are inclusive of travel and berth accommodation. They are available from the normal outlets on production of a Staff Travel Card or TOC Privilege Travel Card (there is no need for boxes on Staff Travel Cards to be dated). This will usually be the cheapest way to secure privilege travel on Caledonian Sleeper services.

Please note that all Caledonian Sleeper fares are subject to availability, and the available price will be confirmed at the time of booking.

Tickets can be issued using the PRV discount code against the ticket types indicated above and using the route "Cal Sleeper". Further information and assistance for retailers can be found in The Manual under "Sleeper Services".

These fares valid until further notice.
