

CHILTERN RAILWAYS

Chiltern Railways have recently introduced a Business Zone on their Silver train services between Birmingham and London. This additional accommodation provides an ideal working environment with wider seats and more legroom. Passengers are attended to by a dedicated train host who can provide an at seat catering service.

Regardless of the type of travel facilities held, staff and their dependants may only use this accommodation upon payment of the public rate supplement of £20. Further information on Business Zone can be obtained from the Chiltern Railways website www.chilternrailways.co.uk/mainline/faqs.
